WHAT WE OFFER

IN MEMORIAM

The Memoriam Pathway provides an avenue to celebrate and commemorate your loved one through the very personal medium of body art. Your loved one cherished their body art and you associate your loved one with their tattoos. Tattoo Memorials receives photographs of your loved one from your Funeral Home Representative. You then describe your vision to memorialize the body art. Our talented artists can create an exact replica in another medium or make enhancements that you will cherish and that will honor and memorialize your loved one through their unique body art.
